

EXECUTIVE ORDER NO. 46
Series of 2026

**AN ORDER IMPOSING A COMPLETE BAN ON THE ENTRY OF
LIVE PIGS, PORK, PORK PRODUCTS, PORK BY-PRODUCTS,
FROZEN BOAR SEMEN, AND HOG TRANSPORT VEHICLES INTO
THE PROVINCE OF NEGROS ORIENTAL FROM ASF-AFFECTED,
RESTRICTED, OR HIGH-RISK AREAS, REACTIVATING THE
PROVINCIAL ASF TASK FORCE, AND FOR OTHER PURPOSES**

WHEREAS, African Swine Fever (ASF) remains a serious transboundary animal disease affecting swine, and recent reports indicate a resurgence of ASF cases in the neighboring Province of Negros Occidental, thereby posing a heightened risk of entry and spread into the Province of Negros Oriental;

WHEREAS, the Department of Agriculture issued Administrative Circular No. 12, series of 2019, establishing the National Zoning and Movement Plan for the Prevention and Control of African Swine Fever, which prescribes zoning classifications and movement protocols for live pigs, pork, pork products, and related by-products;

WHEREAS, Administrative Order No. 22, series of 2020, directs all government agencies and local government units to strictly implement and comply with the National Zoning and Movement Plan for African Swine Fever under Department of Agriculture Administrative Circular No. 12, series of 2019;

WHEREAS, the Provincial Government of Negros Oriental deems it necessary to adopt anticipatory and extraordinary precautionary measures in order to protect the local swine population, prevent the possible entry and spread of ASF into the province, and minimize economic disruption to backyard raisers, commercial farms, traders, and consumers;

WHEREAS, Section 16 of Republic Act No. 7160, otherwise known as the Local Government Code of 1991, empowers local government units to exercise powers necessary, appropriate, or incidental to their efficient and effective governance and those essential to the promotion of the general welfare;

WHEREAS, Section 465(b)(2)(ii) of Republic Act No. 7160 authorizes the Provincial Governor to issue executive orders for the faithful and appropriate enforcement and execution of laws and ordinances;

NOW, THEREFORE, I, MANUEL L. SAGARBARRIA, Provincial Governor of Negros Oriental, by virtue of the powers and authority vested in me under Section 16, in relation to Section 465(b)(2)(ii) of the Local Government Code of 1991, do hereby order:

SECTION 1. Declaration of Policy and Objectives. It is hereby declared the policy of the Provincial Government of Negros Oriental to adopt preventive, precautionary, and extraordinary measures against African Swine Fever, strengthen local biosecurity and border control systems, protect the local swine industry, and safeguard the pork supply of the province.

SECTION 2. Reactivation of the Provincial ASF Task Force. The Provincial African Swine Fever Task Force is hereby reactivated to oversee, coordinate, and monitor the implementation of this Executive Order and related national and local issuances on ASF prevention and control.

The ASF Task Force shall be composed of the following:

Chairperson: Provincial Veterinarian
Vice-Chairperson: Provincial Agriculturist

Members:

- SP Member, Chairman – Committee on Agriculture
- Provincial Legal Officer
- Provincial Health Officer
- Representative of the Department of Agriculture Regional Field Office -NIR
- Representative of the Department of Agriculture - PATCO
- Representative of the Bureau of Animal Industry, when practicable
- Representative of the National Meat Inspection Service - NIR
- Provincial Director, Negros Oriental Police Provincial Office, or representative
- Representatives from port authorities, the Philippine Coast Guard, and other law enforcement agencies concerned with border and transport control
- All City/Municipal Agriculturists and/or Veterinarians
- Provincial DRRM Officer
- Representative/s from commercial swine raisers' associations and backyard raisers' associations, if any
- Other offices or agencies as may be designated by the Governor

The Task Force shall formulate and periodically update the provincial ASF prevention strategy, recommend additional safeguards when warranted by developments in other provinces or regions, coordinate surveillance and reporting, and supervise enforcement activities under this Order.

SECTION 3. Complete Ban on Entry. A complete ban is hereby imposed on the entry into the Province of Negros Oriental of live pigs, pork, pork products, pork by-products, frozen boar semen, and hog transport vehicles/carriers or livestock transport vehicles that originated from, were previously used in, passed through, or transited ASF-affected, restricted, or high-risk areas, as may be identified by the Department of Agriculture, the Bureau of Animal Industry, or other competent authorities pursuant to existing national laws, rules, and issuances.

No shipment, delivery, transport, or conveyance of live pigs intended for breeding, fattening, slaughter, trade, or any other purpose, and no pork, pork products, pork by-products, frozen boar semen, or related regulated articles intended for sale, distribution, processing, storage, or personal carriage, shall be allowed entry into Negros Oriental from such areas for the duration of this Executive Order.

Any hog transport vehicle, livestock carrier, truck, trailer, or similar conveyance used for the transport of live pigs, pork, pork products, pork by-products, frozen boar semen, or related regulated articles from ASF-affected, restricted, or high-risk areas shall likewise be prohibited from entering the province unless expressly authorized under applicable quarantine, disinfection, and downtime protocols that may be adopted by the Provincial Veterinary Office consistent with law and national issuances.

Any permit, veterinary health certificate, shipping document, certificate, or similar paper shall not authorize entry when the place of origin, source, or transit falls within an ASF-affected, restricted, or high-risk area covered by this ban.

The Provincial Veterinarian, in coordination with the Provincial ASF Task Force, shall continuously monitor national zoning updates, disease intelligence, and official advisories, and shall recommend to the Governor such modifications, partial lifting, or continuation of the ban as circumstances may warrant, consistent with prevailing national policy.

SECTION 4. Border Control, Inspection, and Checkpoints. The Provincial ASF Task Force is hereby authorized to establish and maintain quarantine inspection points, border control stations, and port inspection measures in strategic entry areas of the province for the purpose of enforcing this Executive Order, inspecting shipments, verifying origin and supporting documents, and preventing the unauthorized entry of prohibited animals and products.

A strict implementation of border control and veterinary quarantine measures, including the inspection of cargo, meat transport vehicles, hog transport vehicles, livestock transport carriers,

poultry transport carriers, private vehicles, passenger baggage, and other conveyances, shall be imposed at all ports, boundaries, and other strategic entry points of Negros Oriental.

The Philippine National Police, port authorities, Philippine Coast Guard units, and all other concerned enforcement agencies are hereby directed to assist the Provincial Veterinary Office and the Task Force in the implementation of this Executive Order, including inspection, holding, refusal of entry, confiscation when authorized, and other lawful enforcement actions against non-compliant shipments.

SECTION 5. Disinfection and Downtime of Returning Hog Transport Vehicles. Any hog transport vehicle or livestock transport vehicle that is exceptionally allowed entry into the Province under written authority of the Provincial Veterinary Office shall be subject to mandatory washing, disinfection, quarantine observation, and downtime requirements as may be prescribed by the Provincial Veterinary Office or the Provincial ASF Task Force.

The Provincial Veterinary Office may designate specific ports of entry, quarantine holding areas, and compliance procedures for such returning vehicles, including the issuance of disinfection clearance or certificate of compliance after completion of the required downtime and biosecurity measures. This reflects the operational approach used in the prior provincial EO for returning livestock transport vehicles.

SECTION 5-A. Regulated Transport of Live Hogs to the Province of Cebu. Notwithstanding the inbound prohibitions under this Executive Order, the outbound transport of live hogs from Negros Oriental to the Province of Cebu may be permitted, subject to applicable national veterinary quarantine requirements and such additional safeguards as may be imposed by the Provincial Veterinary Office.

The Provincial Veterinary Office shall designate the authorized ports of exit and the port of entry for returning livestock transport vehicles and shall prescribe the corresponding washing, disinfection, quarantine observation, downtime, and certification requirements for such returning vehicles. This structure follows the earlier provincial EO's protocol for Cebu-bound transport and returning carriers.

No returning hog transport vehicle shall be allowed to operate within the province unless it has complied with all required biosecurity, quarantine, and clearance procedures prescribed by the Provincial Veterinary Office or the Provincial ASF Task Force.

SECTION 6. Confiscation and Disposition. All live pigs, pork, pork products, pork by-products, frozen boar semen, hog transport vehicles, and other regulated items found to have entered, or attempted to enter, the Province of Negros Oriental in violation of this Executive Order shall be subject to immediate refusal of entry, return to origin, confiscation, impoundment when applicable, and disposition in accordance with existing laws, rules, regulations, and biosafety protocols.

All confiscated pork, pork products, pork by-products, frozen boar semen, and other regulated materials shall, after proper inventory and documentation, be disposed of by the Office of the Provincial Veterinarian or the concerned local government veterinary or agriculture office through destruction or such other appropriate method as may be authorized by competent authorities.

Impounded hog transport vehicles or livestock transport vehicles shall be released only upon compliance with lawful disinfection, quarantine, documentation, and clearance requirements imposed by competent authorities, without prejudice to the filing of appropriate administrative, civil, or criminal actions.

SECTION 7. Duties of Component LGUs. All cities and municipalities in Negros Oriental are hereby directed to support and coordinate with the Provincial ASF Task Force, activate their respective local monitoring mechanisms, intensify barangay-level information drives, monitor

backyard and commercial swine operations, and immediately report unusual swine mortality or suspected ASF-related incidents to the Provincial Veterinary Office.

Each barangay is likewise encouraged, through its Punong Barangay and with the guidance of the city or municipal agriculturist or veterinarian, to organize or reactivate a barangay-level ASF monitoring mechanism to serve as the community-based surveillance and reporting arm for ASF prevention and early detection. This is consistent with the barangay surveillance approach reflected in the attached prior EO.

They may issue supplemental local directives consistent with this Executive Order and prevailing national guidelines, provided that such issuances do not contravene applicable national laws, rules, and directives of the Department of Agriculture.

SECTION 8. Duties of Traders, Raisers, Transporters, and Other Stakeholders. All swine raisers, traders, meat dealers, transporters, hog vehicle operators, slaughterhouse operators, market administrators, food business operators, and other persons engaged in the swine and pork supply chain within or entering Negros Oriental shall comply with all biosecurity, inspection, quarantine, and enforcement requirements imposed by national and provincial authorities.

They shall refrain from sourcing from, transporting, carrying, concealing, misdeclaring, or facilitating the entry of regulated pigs, pork products, pork by-products, frozen boar semen, or hog transport vehicles from ASF-affected, restricted, or high-risk areas, and shall immediately cooperate with lawful inspection, verification, and traceability procedures conducted by competent authorities.

SECTION 9. Information and Biosecurity Campaign. The Provincial Government, through the Provincial Veterinary Office, Provincial Information Office, and component LGUs, shall conduct information and education campaigns on ASF prevention, complete-ban compliance, farm biosecurity, vehicle sanitation, and reporting protocols, especially for backyard raisers, transport stakeholders, market operators, and barangay officials.

SECTION 10. Sanctions. Any person or entity found violating this Executive Order, or found to have misdeclared, concealed, transported, carried, or facilitated the unauthorized entry of regulated pigs, pork, pork products, pork by-products, frozen boar semen, or hog transport vehicles into the province, shall be dealt with in accordance with existing laws, administrative regulations, and applicable provincial, city, or municipal ordinances, without prejudice to confiscation, return to origin, impoundment, refusal of entry, permit sanctions, or the filing of appropriate administrative, civil, or criminal actions.

SECTION 11. Separability Clause. If any provision of this Executive Order is declared invalid or unconstitutional, the remaining provisions not affected thereby shall continue to be in full force and effect.

SECTION 12. Repealing Clause. All executive orders, memoranda, rules, regulations, and other issuances inconsistent with this Executive Order are hereby modified, amended, or repealed accordingly.

SECTION 13. Effectivity. This Executive Order shall take effect immediately upon signing and shall remain in full force and effect until lifted, modified, or superseded by a subsequent Executive Order, or upon recommendation of the Provincial ASF Task Force based on updated ASF zoning status, disease risk assessment, and prevailing national policy.

ISSUED this 24th day of June 2026, in Dumaguete City, Province of Negros Oriental, Philippines.

MANUEL S. SAGARBARRIA
Governor
